FRAGRANCE / HYGINE

AHU SCENT DELIVERY SYSTEMS SDS 5000

Most powerful scent system for dispensing fragrance up to 8000 Sq. ft. of area after connecting with AHU / VRV ductable unit. SDS 5000 adopts cold air atomization principle, which is latest high end technology among Fragrance Industry. Superefficient fragrance oil consumption of 6 ml per hour with a throw of more than 80 liters per minutes' makes the system best suited for Hotel Lobby / Banquet / Shopping Malls / Hospitals & for covering larger areas.

Intelligence: Adopting microcomputer system to control the working time into 4 different modes and aroma concentration based on your setting in the Scent System.

Reliability: Leading proprietary technology, the patented technology of Micron atomization makes the aroma to spread quickly in the interior space, more fresh and lasting.

Applicability: Elegant appearance, easy to install, stable performance.

Bluechip Hospitality Services Hospital's range of Products

AHU SCENT DELIVERY SYSTEMS SDS 3000

Robust scent system for dispensing fragrance up to 4000 Sq. ft. of area once connected with AHU / VRV ductable unit or this system can be Wall mounted if not connected with any duct to dispense fragrance up to 3000 sq. ft. of area. SDS 3000 adopts cold air atomization principle, which is latest high end Technology among Fragrance Industry. Superefficient fragrance oil consumption of 4 ml per hour with a throw of More than 50 liters per minutes makes the system best suited for Hotel Lobby / Banquet / Shopping Malls & Restaurants. Intelligence: Adopting microcomputer system to control the working time into 4 different modes and aroma concentration based on your setting in the Scent System.

Reliability: Leading proprietary technology, the patented

technology of micron atomization makes the aroma to spread quickly in the interior space, more fresh and lasting.

Applicability: Elegant appearance, easy to install, stable performance.

Bluechip Hospitality Services Hospital's range of Products

AHU SCENT DELIVERY SYSTEMS SDS 2000

Portable scent system for dispensing fragrance up to 3000 Sq. ft. of area once connected with AHU / VRV ductable unit or this system can be Wall mounted if not connected with any duct to dispense fragrance up to 2000 Sq. ft. of area. SDS 2000 adopts cold air atomization principle, which is latest high end technology among Fragrance Industry. Superefficient fragrance oil consumption of 2 ml per hour with a throw of more than 25 liters per minutes makes the system best suited for Hotel Lobby / Hotel Floor corridors / Washrooms & Restaurants.

Intelligence: Adopting microcomputer system to control the working time into 4 different modes and aroma concentration based on your setting in the Scent System.

Reliability: Leading proprietary technology, the patented technology of micron atomization makes the aroma to spread quickly in the interior space, more fresh and lasting.

Applicability: Elegant appearance, easy to install, stable performance.

Bluechip Hospitality Services Hospital's range of Products

AHU SCENT DELIVERY SYSTEMS SDS 20

Portable Battery operated / Adapter based scent system for dispensing fragrance up to 400 Sq. ft. of area. This system is Wall mounted only.

SDS 20 adopts cold air atomization principle, which is latest high end technology among Fragrance Industry. Superefficient fragrance oil consumption of 1 ml per hour. This system best suited for Office Reception / Washrooms & Restaurants.

Intelligence: Adopting microcomputer system to control the working time into 4 different modes and aroma concentration based on your setting in the Scent System.

Reliability: Leading proprietary technology, the patented technology of micron atomization makes the aroma to spread quickly in the interior space, more fresh and lasting.

Applicability: Elegant appearance, easy to install, stable performance.

Bluechip Hospitality Services Hospital's range of Products

AHU SCENT DELIVERY SYSTEMS SDS TOWER

It is completely discreet and portable stand-alone tower style Scent System. It adopts advanced scent technologies and could let the scent mist quickly be full of spaces. This system dispenses and effectively covers the area upto 2000 Sq. ft. SDS Tower adopts cold air atomization principle, the advanced physical atomized technology to transfer the liquid scented oil into the Aroma.

Superefficient fragrance oil consumption of 3 ml per hour. This system best suited for Office Reception / Hotel Lobby / Hotel Floor Corridors & Restaurants.

Intelligence: Can set up 4 group work periods and adjust fragrance intensity by PCB controller.

Reliability: Leading proprietary technology, the patented technology of micron atomization makes the aroma to spread quickly in the interior space, more fresh and lasting.

Applicability: Concise style design, beauty and generous.

Bluechip Hospitality Services Hospital's range of Products

AHU ESSENTIAL BIO OIL (FOR SCENT SYSTEM)

Essential Aroma oils and thus the Aromatherapy are one of the greatest Untapped resources of the world.

To infuse the Air Space with a delightful fragrance by burning essential oils, fragrant resin and incense is an age-old Indian tradition.

Our diffuser oils are infused with sheer, pure fragrances that evoke a mood of your preference. Choose from relaxing herbs, sensuous florals, invigorating citruses, to woody accords. Create the ambience you desire. Can be used anywhere & any time thus spreading aroma miracles & delights of creation. Smell Amazing.

Just few drops of our aroma oils are enough to release the power of essence. Essential oils are scientifically known to possess stress relieving properties and fragrance that can uplift your senses.

We Provides Protection & Pleasure without polluting environment with harmful chemica

AIR FRESHENER

Chlorofluorocarbon & carcinogenic chemical free commercial Air freshener.

Developed both Oil & Water based Air fresheners. Available in variety of modern blended aroma scents. Long lasting duration of purest aroma round the clock. ANTI-SMOKE for killing smoking / foul / Stinking / musty & Strong unpleasant disgusting odors without masking them \ with any other flowery aroma.

Bluechip Hospitality Services Hospital's range of Products

AROMA DIFFUSERS

Aroma Diffuser is commonly known as aromatherapy oil burner.

With the new technology, electric aroma diffusers are becoming popular in which the aroma oil is heated to diffuse fragrance in the air. Aroma Diffusers are available in both Electric & Candle based operational model.

How to use Oil Burners / Aroma Diffuser

Simply fill the bowl with water. Add 5 to 15 drops of essential oil or Aromatherapy Blend, heat it with tea light, & ready to relax with the soothing aroma of scents in surrounding. The bigger the room, the more Oil will be required. Because Essential Oils evaporate spreading their aroma around the room, you may want to add more Oil after a time to maintain the effect.

Bluechip Hospitality Services Hospital's range of Products

BATHROOM DIFFUSER

Bathroom diffusers / Reed diffusers works on the principal of Capillary action. When reeds which are porous and excellent for diffusion, are partially immersed in a bottle of fragrance oil, fragrance travels up the reeds and gently permeates the room. The process gets the best out of your essential oils by releasing their Fully aromatic and therapeutic properties, thanks to cold diffusion which maintains the delicate balance of oil's chemical structure. A 24 – hour aromatic experience; no fire, no ash, truly maintenance-free.

CARPET POWDER

Robust Carpet Cleaning technique.

Its Active salts components not only clean the carpet but also kills the bad odour eliminating fungus, moulds & bacteria. Essence of herbal fragrance blended with the salt helps in not only removing the foul odour but also makes the area healthy and fresh. Available in exciting range of fragrances.

How to use Carpet Powder:

Simply sprinkle the carpet powder over the carpet, rub it properly with the help of carpet brush or Single disk Carpet shampooing machine. Leave it for 45-60 minutes so that fragrance of carpet powder will integrate with the carpet threads and in return the active salt absorb the moistures and kill the fungus / moulds and other pathogens.

After that take the vacuum of it so that all the powdery salts gets collected properly.

Bluechip Hospitality Services Hospital's range of Products

ROTATING AIR AROMA DIFFUSER

Removes unfavorable odor & dispense aroma fragrance dissolved in Water by water wash technology.

Creates the vacuum inside the bowl thus helps in dissolving the dust Particle and bad smell in it.

Purified & Fragrant air is effectively dispersed from the inbuilt exhaust fan. Eliminates airborne bacteria & germs.

How It Works:

Just pour 10-15 ml of aroma oil in 1000 ml water.

Once the system switched on the fragrance starts coming of it.

The fragrance will gradually have decreased after 10-12 hours so put fresh water and fresh aroma oil after cleaning the bowl for having good & effective aroma fragrance in the property.

Try to use Oil based aroma fragrance in the system as water based aroma fragrance gets vaporized rapidly.

ANTI SMOKE ODOUR KILLER

Chlorofluorocarbon & carcinogenic chemical free commercial air

freshener; Zero Health Hazard Suffocating Problems; Developed both Oil & Water based Air fresheners

Available in variety of modern blended aroma scents; Long lasting duration of purest aroma round the clock;

ANTI-SMOKE for killing smoking odor

Guaranteed Hot Food for the Fuel Buffet

Bluechip Hospitality is pleased to introduce to the **Indian Markets a world class buffet warming fuel**. With over 18 years' experience, it supplies its quality products to various leading hotel chains in over 20 countries around the world, that include the Marriott, Hilton, Intercontinental, and Movenpick, to name a few. You can now be assured of a superior's product that will heat your buffets consistently for the full duration of your event. It is available in 24 packing in clear plastic cans, with 4 hours burn time. The advantage of the product being nonflammable makes it very safe to use and reuse.

Chaffing Dish Fuel Wick - 4Hrs (140 ML) per Piece Price: INR: 37/-

Chaffing Dish Fuel Wick - 6Hrs per Piece Price: INR: 41/-

Salient Features:

- The liquid fuel is not flammable. It is the wick that burns, not the fuel.
- This makes it easy to store and transport.
- The fuel is **reusable**, unlike gel. After a couple of hours of burn time, you can replace the plastic cap on the wick and extinguish the flame and reuse at a later date. There are no concerns that the product will evaporate like gel, and it has a much **longer shelf life of 2 years**.
- In the plastic can, you can see how much fuel is left, and by noting the graduations on the side, you can plan your buffets without any wastage. This is a guarantee that the fuel burns for 2 hours.
- The fuel leaves no residue. It is completely used unlike gel.
- The fuel does not leave any soot or smoke.
- There is no chance of a fire hazard if the product spills out, unlike with the gel.
- The product has acceptance in various international hotel chains that are present in India. It is backed by years of reputation for quality and service.
- Chaffing Dish Fuel Wick - 4Hrs Quantity: 24 Cans, G.W: 4.110 Kgs N.W: 3.000 Kgs.
- Chaffing Dish Fuel Wick - 6Hrs Quantity: 24 Cans, G.W: 5.610 Kgs N.W: 4.440 Kgs.

15Ltrs & Hot 3Ltrs, Cold 15Ltrs, SS Heater Coil, Thermostat & Thermal Cutoff,

Heavy Duty Faucet

D 100 NHC – Unit Price INR 47,590/-

Stainless Steel SS 304 Body & Storage Tank Capacity — Normal

25Ltrs & Hot 3Ltrs, Cold 25Ltrs, SS Heater Coil, Thermostat & Thermal Cutoff,

Heavy Duty Faucet

D 125 NHC – Unit Price INR 54,640/- & D 250 NHC – Unit Price INR 60,515/-

Stainless Steel SS 304 Body & Storage Tank Capacity — Normal

40Ltrs & Hot 5Ltrs, Cold 40Ltrs, SS Heater Coil, Thermostat & Thermal Cutoff,

Heavy Duty Faucet.

BEVERAGE DISPENSERS

BHS-D7 - BEVERAGE BARREL – 7L - Price – 9,500/-

SPECIFICATION

PACKAGED SIZE - 440*240*390mm

PACKAGED WEIGHT - 4.96kgs

PRODUCT SIZE - 430*230*376mm

PRODUCT WEIGHT - 4.4kgs

CAPACITY - 7L

MATERIAL - PE+PU+PE

BHS-D10 - BEVERAGE BARREL – 10L - Price – 12,750/-

SPECIFICATION

PACKAGEDSIZE - 430*240*475mm

PACKAGED WEIGHT - 6.38kgs

PRODUCT SIZE - 425*295*672mm

PRODUCT WEIGHT - 9kgs

CAPACITY - 20L

MATERIAL - PE+PU+PE

BHS-D45 - BEVERAGE BARREL – 45L - Price – 29,500/-

SPECIFICATION

PACKAGESIZE - 555*430*645mm

PACKAGED WEIGHT - 14.95kgs

PRODUCT SIZE - 540*420*630mm

PRODUCT WEIGHT - 13.6kgs

CAPACITY - 45L

MATERIAL - PE+PU+PE

Bluechip Hospitality Services Hospital's range of Products

30% Energy Saved

Our innovative low heating technology and fully Insulated chamber maintains food freshness and flavor, ensuring every bite is as delicious as if it just came out of the oven.

Safety

Fully protected with ELCB for any surge in input electric power ensuring no damage to the equipment or user.

Heating

A controlled, uniform low-density thermal heating source that gently surrounds food for better taste, fresh appearance.

Bluechip Hospitality Services Hospital's range of Products

Control

The user-friendly digital microprocessor allows to set desired precise temperature.

Flexibility

Most convenient design with increased safety, creating more space to fit GN Pans or trays. Smart utilization for any application.

Efficiency

Using energy efficiently. The double-walled body is uniformly insulated. It ensures that no cold or hot air is wasted.

Hygienic

Easy to clean inside, washable, all removable shelves. Thanks to our design team.

Handle

Perfect dia, long ergonomic push handle fits nicely in every hand for easy and smooth movement of the cart.

Material

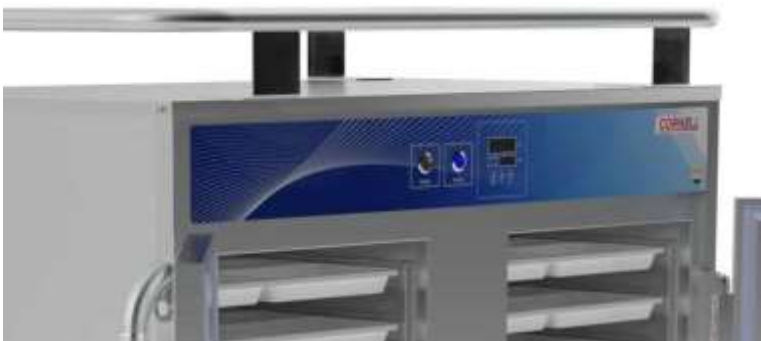

High-quality food grade, SS 304 (DIN1.4301). Micro-polished surface is extremely resistant to soiling and germs.

Bumpers

Protected with extra-wide all-round bumper guard. Rugged silicon guards protect the unit and furniture.

Castors

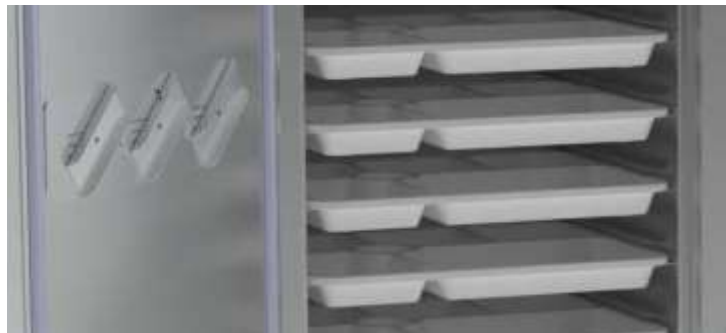

Rugged synthetic, noise free castors comply with all requirements according to industry safety standards

Our **Digital controllers** are user-friendly, with their intuitive interfaces, simplify navigation, configuration, enable precise control.

Bluechip Hospitality Services Hospital's range of Products

Insulated door with removable beading and openable ventilation represents a solution for various settings in environments requiring temperature control and airflow management.

Designed to accommodate trays and pans. Whatever you want to store, our product is tailored to meet your needs. Keeping your convenience in mind, our product boasts removable shelves that ensure that it is easy to clean inside.

Ergonomically designed long handles that has a comfortable grip, ensures handling of heavy trays and pans is effortless. Your culinary creations are safely contained with a Lockable magnetic latch.

Bumper guards will protect your walls from bumps and scratches, ensuring your cart and surroundings stay in pristine condition. Our noise-free castors allow for silent mobility without disturbing the peace.

Bluechip Hospitality Services Hospital's range of Products
